WHAT CHANGED

VERIFIED FACT

THE BOARD IS COMPLETE

48 contiguous pick numbers, 48 unique Sleeper player IDs, 12 exact team joins, and no final owner mismatch.

DERIVED STAT

BEFORE → AFTER

Each team capsule compares the strict pre-draft reconstruction with the frozen current roster and final selection record.

UNKNOWN / UNAVAILABLE

ONE HISTORY SEAM STAYS VISIBLE

Pick 38 transaction-history gap: The draft-level traded-pick snapshot has no matching public transaction row in the queried league history. Final owner roster 8 is supported by the draft snapshot; its transfer timing is not.

Final ownership is verified. Pre-draft timing is not backfilled.

EVODRAFT MODEL OPINION

Buckeye Grove's class runs from 2.05 Zachariah Branch through 4.09 Jam Miller: 2 selections (RB 1 · WR 1) with 5 verified 2027–28 assets still held. EvoDraft reads that construction as a concentrated rookie build. Rookie orientation has exactly 2 seats. No dynasty value source was frozen, so no grade, competitive-window tier, or season prediction is attached.

EVODRAFT MODEL OPINION

Team Tebow's class runs from 1.02 Carnell Tate through 1.02 Carnell Tate: 1 selections (WR 1) with 10 verified 2027–28 assets still held. EvoDraft reads that construction as a single-shot rookie build. Rookie orientation has exactly 1 seats. No dynasty value source was frozen, so no grade, competitive-window tier, or season prediction is attached.

Only 2027 and 2028 are expanded because those are the seasons represented by the frozen public traded-pick state. Absent seasons are not presented as an active market.
